

COVERING ALL THE BASES – A cross-sector, translational roadmap for D3s

PERSPECTIVES

Academia

Dental
Medical/public health

Practitioner

Dental - paed, ortho, OHP, GDP
Medical – paed, other

Industry

Dental
Medical/public health

Government

Dental
Medical/public health

Public

Affected
At risk

TRANSLATION

ASPECTS

	Research	Clinical	Population	Education	Translation
Academia	Yellow	White	Yellow	Profession Public	Better knowledge
Practitioner	Yellow	Yellow	White	Public	Better practice
Industry	Yellow	Profession	Public	Profession Public	Better products
Government	White	Yellow	Yellow	Public	Better policy
Public	White	Yellow	Yellow	Public	Better societies

GLOBAL PROJECTS

RESEARCH clinical population cause/prevention
PRACTICE/DELIVERY clinical guidelines D3 clinics policy/delivery
PRODUCTS existing – education new – professional new – consumer
EDUCATION professional public
TRANSLATION & GOVERNANCE formalise D3G define roles implementation

Draft examples

KEY QUESTIONS (cf. aspirations & goals)

Draft examples

RESEARCH	CLINICAL	POPULATION	EDUCATION	TRANSLATION
Burden/costs Best practice Cause/prevent New products Who pays	Best practice Governance Responsibilities Research needs Product needs	Burden/costs Caries vs D3s Intervention Prevention Product needs	Knowledge gaps Responsibilities Who pays	Gaps/needs Responsibilities Governance Who pays
