Why should I attend the D3 Research Incubator?

CLINICIANS

- Good science often starts with clinical problems
- Clinicians know the problems with MH
- Want to help set the direction of problem-solving?
- Then attend and share your clinical experience!

SCIENTISTS

- Clinical problems always benefit from good science
- Scientists should know about the problems with MH
- Want to help set the approach to problem-solving?
- Then attend and share your scientific experience!

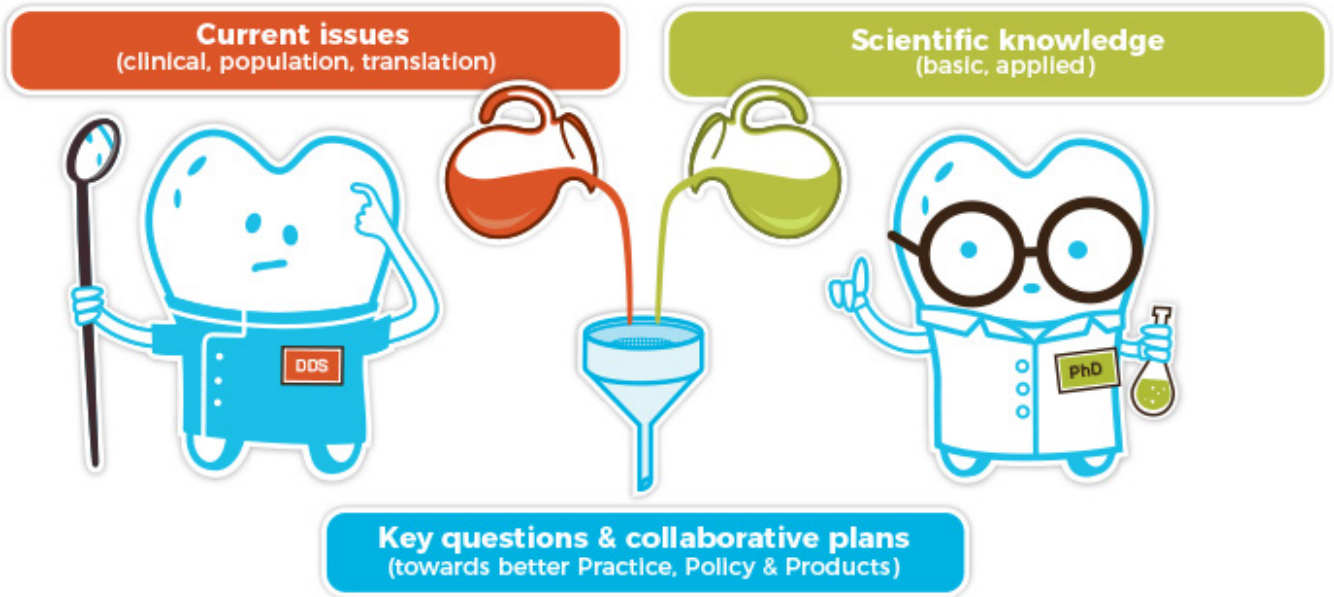

END-TRANSLATORS

- Good science gets better once effectively translated
- End-translators should engage "the MH problem"
- Want to help set the approach to problem-solving?
- Then attend and share your translational experience!

Key attractions at a glance:

- **Live Symposium** with **online option** covering main sessions
- Up to **21 CE hours** live (about half online)
- Suitable for **students, clinicians, scientists & end-translators** of all ranks
- Unique **'Ideas Incubator'** format with structured sessions & **"feedback networking"**
- Stellar **Keynote Presenters**, sharing their translational journeys
- **'D3 Family'** themes - 'Meet & Greet', 'Listen & Be Heard', 'Translate Ideas to Action'
- Strong **international flavour** - many polyglots handy should your English need support
- Be part of **"D3 history in the making"** by fortifying our **8 field-defining outputs**
- Unique **translational media show** to share cases, anecdotes & emerging science
- Enjoy the **excitement of Toronto** at a wonderfully picturesque time of year

OUR WORLD-FIRST SYMPOSIUM ON D3s - AT LAST! (2022)

At long last, our twice-postponed **International Symposium on Molar Hypomineralisation and Chalky Teeth** was held “live” in **Toronto** (12th – 14th October, 2022), with COVID constraints eased and Canada welcoming visitors again. Addressing the **translational paths** needed to **strengthen D3 science** and **convert it into social good**, the Symposium was primarily designed **for live participation** after two years of Zoom webinars. Besides addressing the pre-symposium projects (below), bountiful time was allocated for **informal networking**

and **structured discussion** to “**meet and greet**” our wonderful **D3 family** of healthcare practitioners, scientists, industry reps and government professionals from around the world (**22 countries** were represented).

Framed around our unique ‘**Ideas Incubator**’ format pioneered in 2021 (see [D3 Research Incubator](#)), the sessions filtered through **current issues** and **scientific knowledge** to arrive at **key questions** and **collaborative plans** for future actioning.
